

CEED Digital Toy

Augmented Reality CEED Toy

OK Time for some fun - Instructions:

Print this A4 page out and cut out the marker as indicated by the dotted line.

Go to our website and follow the instructions or go directly to:
<http://digitalplant.ceedstudio.com/>

Once the file has loaded and your webcam is active, hold the marker you cut out up to the camera and watch CEED's digital plant.

!! Make sure you hold the marker up by the outer white border so the camera can see the entire black border of the 'Marker Graphic' as indicated by the fingerprint

Enjoy the 3D Toy!!!!

WEBCAM Notes, Apple MAC user especially please read:

For some reason, the Macbook Pro webcam is not set to a default to work with Flash. Here's what you need to do.

Control Click the Flash Object that opens up and select 'Settings'

Go to the 'Camera Tab' and Use the drop down menu to select 'USB Video Class Video'
Close the 'Settings' window and everything should work ok.
